

FOR IMMEDIATE RELEASE: December 1, 2010

THE SAMMY SYSTEM'S SAMMYEHR RECEIVES ONC-ATCB 2011/2012 CERTIFICATION

December 1, 2010– The Sammy Systems announced today that SammyEHR V 5.1.1 is 2011/2012 compliant and was certified as a Complete EHR on December 1, 2010 by the Certification Commission for Health Information Technology (CCHIT®), an ONC-ATCB, in accordance with the applicable eligible provider certification criteria adopted by the Secretary of Health and Human Services. The 2011/2012 criteria support the Stage 1 meaningful use measures required to qualify eligible providers and hospitals for funding under the American Recovery and Reinvestment Act (ARRA).

“Meeting Meaningful Use will be easy for those offices that embrace the technology my company created. Our new online training classes through my newly established "Sammy University" will offer all of the training needed to use SammyEHR in a "Meaningful" way. 2011 will be my 25th year servicing this industry. I firmly believe that by achieving this level of certification my company has once again shown both our clients and those who need to select a Certified EHR program that The Sammy Systems has what it takes to lead them through this exciting phase of Meaningful Use.”

– Ken Katz, President

The ONC-ATCB 2011/2012 certification program tests and certifies that Complete EHRs meet all of the 2011/2012 criteria and EHR Modules meet one or more – but not all – of the criteria approved by the Secretary of Health and Human Services (HHS) for either eligible provider or hospital technology.

“CCHIT is pleased to be testing and certifying products so that companies are now able to offer these products to providers who wish to purchase and implement certified EHR technology and achieve meaningful use in time for the 2011-2012 incentives,” said Karen M. Bell, M.D., M.S.S., Chair, CCHIT.

SammyEHR V5.1.1's certification number is CC-1112-789800-2. ONC-ATCB 2011/2012 certification conferred by CCHIT does not represent an endorsement of the certified EHR technology by the U.S. Department of Health and Human Services nor does it guarantee the receipt of incentive payments.

The clinical quality measures to which SammyEHR has been certified include: NQF 0421, NQF 0013, NQF 0028, NQF 0041, NQF 0024, NQF 0038, NQF 0056, NQF 0059 and NQF 0061.

The additional software SammyEHR relied upon to demonstrate compliance includes: NewCrop, LLC.

About The Sammy Systems

We are a family owned company that specializes in offering electronic health records software to small to medium size businesses. Many offices who wish to stay on top of the current trends and requirements are looking for a reliable and affordable solution for their offices.

We have been serving the medical community since 1986 under the same ownership. Our motto has always been to make sure our current clients are ahead of the curve and that Sammy makes it as easy as possible for practices to run as efficiently as possible.

All of our programs contain the best features available. We write and maintain the programs so we control the evolution, support and updating that is necessary. This means that stability, compatibility and updating are not issues that we allow our clients to be concerned with. We offer you this technology today.

About CCHIT

The Certification Commission for Health Information Technology (CCHIT®) is an independent, 501(c)3 nonprofit organization with the public mission of accelerating the adoption of robust, interoperable health information technology. The Commission has been certifying electronic health record technology since 2006 and is approved by the Office of the National Coordinator for Health Information Technology (ONC) of the U.S. Department of Health and Human Services (HHS) as an Authorized Testing and Certification Body (ONC-ATCB). More information on CCHIT, CCHIT Certified® products and ONC-ATCB certified electronic health record technology is available at <http://cchit.org>.

About ONC-ATCB 2011/2012 certification

The ONC-ATCB 2011/2012 certification program tests and certifies that EHR technology is capable of meeting the 2011/2012 criteria approved by the Secretary of Health and Human Services (HHS). The certifications include Complete EHRs, which meet all of the 2011/2012 criteria for either eligible provider or hospital technology and EHR Modules, which meet one or more – but not all – of the criteria. ONC-ATCB certification aligns with [Health Information Technology: Initial Set of Standards, Implementation Specifications, and Certification Criteria for Electronic Health Record Technology](#) published in the Federal Register in July 2010 and strictly adheres to the [test procedures](#) published by the National Institute of Standards and Technology (NIST) at the time of testing. ONC-ATCB 2011/2012 certification conferred by the Certification Commission for Health Information Technology (CCHIT®) does not represent an endorsement of the certified EHR technology by the U.S. Department of Health and Human Services nor does it guarantee the receipt of incentive payments.
